## How to Guide for Care Tag Printing

Care Tags are digitally printed “tags” in the same area at a normal tag. They provide all the same information for consumers, but with the ability to make them your own. They are great for branding as you can use them to further your own brand with your logo and unique look! Below we have highlighted the styles available for this service and tips for creating your own!

The following styles have tear-away tags making  
them available to order care tag printing on:

Jerzee: 363L, 363

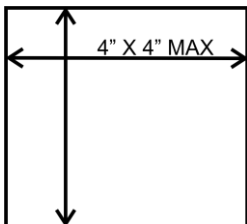

Anvil: 988AN, 880, 980, 882L, 986, 88VL, 392A

Gildan: 570, 500, H000, 500L

Next Level: 3600, N3900

All Care Tags need the following information per federal regulations

1. Size
2. Material (Fiber Content)
3. Country of Origin
4. Identification of Manufacturer, Importer or Other Dealer
5. Care Instructions

Max Care Tag

Artwork size is 4X4

For all DTG items we recommend  
the following care instructions:  
turn the shirt inside out, wash on cold  
with "like" color, no bleach, and tumble dry low.

Hi-Resolution care symbols can be downloaded [here](#)

For more information or to see the full list of regulations please visit the [Federal Trade Commission Site](#)
